Dear Sir,

To extend my knowledge in my major in petroleum engineering and as the manager of the international operations in Total Company I would like to improve my knowledge in the field in other countries, like Arab world, Russia, and Iran.

From this point of view, I want to take one week off from work to attend a course in these countries.

The course will include the concepts of new ideas in how to extract oil from the soil, also in how the distillation tower works using new technology.

I look forward to hear from you soon.

Yours Sincerely,

Mohammed Taher
